A quiet place to color and read

Make it your own

Print the coloring pages you want at Actual Size or 100% on US Letter paper. Use crayons or colored pencils. For markers, test your paper first and place a spare sheet behind the page.

Read together

Each page includes a KJV reference and a short original caption. Open that passage in your Bible, read it in context, and choose a word or detail to discuss. Captions are explanations, not quotations of Scripture.

Pictures and meaning

These are symbolic learning illustrations, not photographs or claims about the exact appearance of a biblical place or object. In the rainbow picture, colors may be chosen freely; Scripture does not specify a number of bands. In the armour picture, the objects illustrate Paul’s spiritual teaching.

A comfortable pace

There is no timer, score or required coloring scheme. A young child may color one large shape; an older learner may discuss the passage; adults may use the page for quiet reflection. Take breaks whenever needed.

Free use

Free personal, family, church and classroom printing is permitted. Do not resell the files, remove ministry credit or claim authorship. Artwork was generated specifically for this collection and reviewed for this edition.

Edition note

This collection contains 25 distinct interior illustrations, plus this usage page, a cover and a reference index. Coloring-book editions are not numbered Sunday School worksheet sessions.
